PROJECT DESCRIPTION

The subject property is a three-story, single-family dwelling. The project is to legalize the construction of a rear deck structure. The rear deck structure has a height of approximately 13 feet above grade and is setback approximately 4 feet and 4.75 feet from the west and east side property lines, respectively. The project involves no changes to the façade of the building.

PER SECTION 134 OF THE PLANNING CODE the subject property is required to maintain a rear yard of 45 feet. The rear deck structure proposed for legalization encroaches approximately 6 feet into the required rear yard and results in a rear yard of 39 feet; therefore, the project requires a variance from the rear yard requirement of the Planning Code.
