## PROJECT DESCRIPTION

The proposal is to expand an existing rear second level deck (approximately 5 feet deep by 7 feet wide) with a new 10-foot deep by 10-feet wide addition. Upon completion, the deck would be approximately 10 feet deep by 17 feet wide.

**PER SECTION 134 OF THE PLANNING CODE**, the subject property is required to maintain a rear yard of approximately 13 feet. The existing building already extends to the rear property line; therefore, the project requires a variance from the rear yard requirement (Section 134) of the Planning Code.

**PER SECTION 188 OF THE PLANNING CODE**, it prohibits the expansion, intensification or change in use of a non-complying structure. Because the existing building already encroaches into the required rear yard setback, it is considered a legal, non-complying structure. The proposed deck expansion would require a variance from Section 188 of the Planning Code.
