PROJECT DESCRIPTION

The proposal is to remove an existing enclosed porch that projects into the required rear yard and to construct a horizontal rear addition in same footprint and envelope as the existing porch at the rear of the existing single-family dwelling.

PER SECTION 134 OF THE PLANNING CODE the subject property is required to maintain a rear yard of approximately 39.5 feet. The removal and reconstruction of the existing legally non-conforming rear addition would encroach approximately 7.5 feet into the required rear yard and result in a rear yard of 32 feet; therefore, the project requires a variance from the rear yard requirement (Section 134) of the Planning Code.
